IMPORTANT ACCOUNT INFORMATION

Periodically, it is necessary to update selected sections of the disclosures you received when you opened your business account. These updates provide you with the most up to date account information and are very important; so please review this information carefully and feel free to contact us with any questions or concerns.

Effective Feb 15, 2018:

If a business debit card or business ATM card purchase amount exceeds the current available balance* in the primary linked checking or savings account when you are making a purchase, you may be able to use your available balance to pay for a portion of the total purchase. The transaction will be subject to a partial authorization daily purchase limit set by the bank and your card's daily dollar limit.

We will first try to approve the full amount of the purchase with available funds in your checking account, account(s) linked for Overdraft Protection, and, if you are enrolled, using debit card overdraft service.

If this cannot result in an approval of the full amount of the purchase, the bank may approve a portion of the purchase using the remaining available funds in your checking account. This is called a "partial authorization." Here are some important details about partial authorizations:

- The remaining amount of the purchase total would need to be covered by another form of payment, such as cash or another card.
- If you are unable/unwilling to provide an additional form of payment, the partial authorization will be reversed by the merchant.
- Not all merchants are able to accept partial authorizations or process transactions using multiple forms of payment.

Thank you for being a Wells Fargo business customer. As a valued Wells Fargo customer we hope you find this information helpful. Again, if you have questions or concerns about these changes, please contact your local banker or call the number listed on your statement.

*This balance may not reflect all of your transactions, such as checks you have written or debit card transactions that have been approved but not yet submitted for payment by the merchant.

Reminder about effect of pending debit card transactions on your account

For each debit card transaction, we place an authorization hold and track the "pending" transaction until the merchant sends the final payment instruction to the bank. We receive final payment instructions for most transactions within one to two business days, but we generally must release the authorization hold after three business days. While pending, these transactions reduce your available balance. If transactions are presented for payment when your account has an insufficient available balance, you may be charged overdraft and/or insufficient fund (NSF) fees on those transactions. The bank will assess no more than eight (8) \$35 overdraft and/or NSF fees per day.

New limits on Fees

Effective November 6, 2017, we will waive overdraft or returned item (Non-Sufficient Fund/NSF) fees on any transactions that are \$5 or less, regardless of your ending account balance. We will continue to waive overdraft fees on all posted transactions if both your ending daily account balance and your available balance are overdrawn by \$5 or less and there are no items returned for non-sufficient funds after all transactions have posted.
